* Third Party Email Address

* Does the resource have the ability to connect to the Amex network through Juniper Pulse VPN, a partner network connection or campus Ethernet?
Prerequisite: The device must have access to the American Express network. VDI is only accessible through Pulse Secure VPN, a partner network connection and/or campus Ethernet. To acquire about Pulse Secure, visit the Remote Access @ American Express page or email ThirdPartyRemoteAccess@aexp.com. To acquire about a dedicated partner network connectors, visit the Global WAN Services page and click Create New Engagement.

* Office License Type
Office 365 Tools Client Access: This is the default role for American Express colleagues. Select this role for contingent workers/contractors who have an American Express desktop, laptop, Virtual Desktop or Citrix access. This role provides a 25GB Exchange Online mailbox with full Outlook client access (except for shared desktops), a Skype for Business account, personal storage in Office 365 (OneDrive for Business), read/write access to SharePoint Online (spacel.aexp.com) and drive.aexp.com), and the ability to edit Office documents using desktop versions of Microsoft Office. Costs are incurred by American Express for providing this access. Please validate that the user needs these services before requesting this role.
Not Required - Office 365 Tools Client Access: Selecting this option the colleague will not be generated an office license or email address. If you select option and submit in error, you will need to submit an IQ entitlement request against Office 365 Tools Client Access.
