

PathCopy

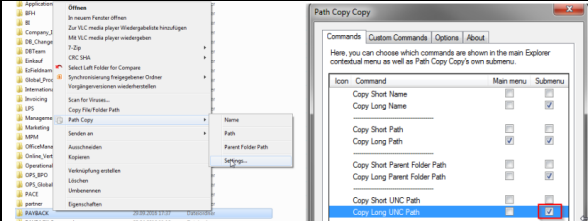

1. How to copy the whole path
2. Activation of the option

1. How to copy the whole path

Go with a right mouse click on the file or folder which you are interested in, choose **PATH COPY** and **UNC PATH**. It saves the whole path to the clipboard. In this case presented on the left it is \\MUC-FILE03\Data\PAYBACK.

2. Activation of the option

As this option does not show you need to add it. Go with a right mouse click on any file or folder, choose **PATH COPY** and **SETTINGS...** there look for **COPY LONG UNC PATH** and set a tick on the **SUBMENU**.
